HOMELAND SECURITY AND SECURITY MANAGEMENT
Degree Outcomes & Employment

LEARNING OUTCOMES OF THE HOMELAND SECURITY AND SECURITY MANAGEMENT PROGRAM

- Identify tactics to respond to crime and neutralize threats of terrorism
- Prepare emergency management strategies of mitigation, preparedness, response, and recovery.
- Identify security threats and provide solutions that mitigate those risks.
- Use strategies to reduce corporate information system risks.
- Communicate clearly, effectively, and appropriately in writing.
- Present ideas effectively orally and visually.

The Homeland Security and Security Management program focuses on the four main pillars that make up the protection industry:

- Security Management
- Criminal Justice
- Security Technology
- Homeland Security
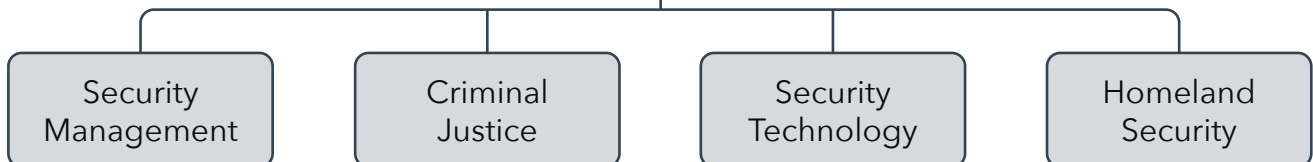

At the successful completion of the program, students will have the necessary body of knowledge to assess risks and vulnerabilities and in response design, implement and manage security countermeasures.
